

**City of Columbus
Regular City Council Meeting
June 25, 2014**

The June 25, 2014 meeting of the City of Columbus City Council was called to order at 7:03 p.m. by Mayor Dave Povolny at the City Hall. Present were Council Members Denny Peterson, Jeff Duraine, Bill Krebs & Jessie Messina. City Administrator Elizabeth Mursko; Engineer Larry Bohrer and Deputy City Clerk Emmy Robinson.

Absent: None

Also in attendance were: Rick Robinson, Pat Boesch, Jody Krebs, Doug Schliesing, John Brown, Frank Wagamon, Perry Wagamon, Mark Kutchen, Jackie Kutchen, Kris King, Paul Peskar, Jeff Pasiuk, Mike Splett, Dan Thill, John Bodger, Chuck Maassen, Ceil Neihart, Rosie Ulrich, Pat Preiner, Jesse Preiner, and Paul Ringell Forest Lake Times.

A. CITY COUNCIL REGULAR MEETING

1. Call To Order - Regular Meeting - 7:00 P.M.
2. Pledge of Allegiance

B. CONSENT AGENDA

1. Motion - Approval of the City Council Meeting Minutes on 06/11/14
2. Motion - Approval of the City Audit Minutes on 06/11/14
3. Motion - Agenda Approval with Additions
4. Motion - Pay Bills as Posted
5. Motion - Resolution to Accept Gifts (Page 1)

Motion by Krebs to approve the consent agenda including ADM 05000 Resolution 14-07 Authorizing Acceptance of Gifts Received by the City of Columbus and to Authorize the City to Administer the Gifts in Accordance with the Terms Prescribed by the Donors, the council expressed its sincere gratitude to Palumbo Landscaping, Landscape Guys for the installation of decorative concrete landscape curbing around (4) trees on the north side of the City Hall at 16319 Kettle River Blvd. Second by Peterson. Motion Carried.

C. PRESENTATIONS

8. PLANNING COMMISSION REPORT

Commissioner Jesse Preiner presented for the pc tonight.

Motion - CBS Outdoor IUP Request (Pages 2-26 & Enclosure) PC14-104

The Planning Commission held a public hearing and made a motion to forward to the City Council the application of CBS Outdoor Billboard for IUP Amendment with a recommendation for approval based on Findings of Fact 1-27 and Conditions 1-5 from the Planner's memo dated June 11, 2014, and with the addition of a sixth condition outlining

sign use for the City. The City Administrator explained that the original permit was for 3 signs, the permit did not expire, the spacing was determined in the 2000 ordinance, this amendment is to allow the dynamic sign instead of a static billboard. The standard post will be installed. The ordinance requires time on the billboard for city advertisement, CBS outdoor has far exceeded this requirement. The term in the ordinance for billboards is 20 years, they are asking for less time so this lease expires at the same time as the other 2 permitted billboards already on the property. A representative from CBS Outdoor was present tonight to answer questions if needed. The billboard has to meet the standards for light and luminosity.

Motion PER 03120 by Peterson to approve the application PC14-104 of CBS Outdoor Billboard on the MN LandSpec property (“subject property”) is located in part of the East ½ of the Southwest ¼ of Section 36, Township 32, Range 22, and is identified as Anoka County parcel ID 36-32-22-34-0004 for IUP Amendment with a recommendation for approval based on Findings of Fact and Conditions 1-5 from the Planner’s memo dated June 11, 2014 with the addition of a sixth condition outlining sign use for the City as indicated below and subject to Findings of Fact and Conditions 1-5 from the Planner’s memo dated June 11, 2014 with the addition of a sixth condition outlining sign use for the City. Second by Krebs. Votes as follows: Peterson - aye; Messina - abstain; Duraine - aye; Krebs - aye; Povolny - aye. Motion Carries.

Findings of Fact for CBS Outdoor Billboard for IUP Amendment PC14-104 on parcel 36-32-22-34-0004

1. CBS Outdoor, LLC (“CBS”) has submitted an IUP application on property owned by MN LandSpec/I-35’s Business Park LLC (“MN LandSpec”), 3205 Spruce Street, Little Canada, MN 55117, to construct a dynamic large off-premises advertising sign (“billboard”).
2. The MN LandSpec property (“subject property”) is located in part of the East ½ of the Southwest ¼ of Section 36, Township 32, Range 22, and is identified as Anoka County parcel ID 36-32-22-34-004.
3. The subject property is commonly referred to as “the triangle” located between I-35 West and I-35 East.
4. The IUP application, received on May 12, 2014, was found complete.
5. The 60-day review deadline is July 11, 2014. The 120-day review deadline, if necessary, is September 11, 2014.
6. Ordinance No. 98-8 (effective date 1/21/99) established the IUP requirement for billboards.
7. The maximum IUP term for billboards was established at 20 years.
8. Ordinance No. 00-2 (effective date 2/24/00) established the Freeway Development-A (FD-A) and Freeway Development-B (FD-B) zoning districts in the 3-square mile Freeway Corridor.
9. Billboards were allowed in the FD-A and FD-B Districts by IUP.
10. Ordinance No. 00-4, adopted on April 26, 2000, established a moratorium on the issuance of IUPs for billboards for a period of one year.

11. Three billboard IUPs were issued on the subject property to DeLite Outdoor Advertising, Inc. in 2001, upon expiration of the moratorium.
12. Two billboards were constructed on the subject property in 2001.
13. The FD-A and FD-B zoning districts were rezoned to new Freeway Corridor zoning districts by Ordinance No. 03-03, effective date June 19, 2003, all of which allow billboards by IUP process.
14. MN LandSpec received City Council approval on April 13, 2011 to extend the original 20-year IUP terms for the two existing billboards to new 20-year terms. The two existing billboard IUPs terminate on April 13, 2031.
15. CBS is requesting an amendment to the IUP for the third billboard on the subject property to allow for a dynamic (electronic) billboard and to extend the term of the 2001 IUP (TB00-101) to match the terms of the two existing billboards on the subject property – April 13, 2031.
16. Ordinance No. 10-06, effective May 6, 2010, allows for dynamic billboards in the I-35 Freeway Corridor zoning districts.
17. The proposed dynamic billboard will be consistent with the prior-approved IUP sign dimensions of two 14 feet by 48 feet sign faces arranged in a “V-shape.”
18. The sign area for each billboard face is 672 square feet.
19. The height of the billboard is 45 feet. The minimum ground clearance for billboard sign is 31 feet.
20. Each billboard will be set back at least five feet from public right-of-way.
21. There are no other existing billboards on the same side of the highway, located within 750 feet of the billboard.
22. The proposed billboard is not located within 500 feet of an RR Zoning District or SR Zoning District.
23. There are no other existing dynamic signs over 200 square feet in area within 3750 feet of the proposed dynamic billboard.
24. There are no public parks, public picnic grounds, highway rest areas, historic sites, churches, or schools located within 750 feet of the proposed billboard.
25. Dynamic sign messaging will not change at intervals less than eight seconds. Electronic image changes will be instantaneous and will not include fading, scrolling or other special effects.
26. The locational and dimensional standards for the proposed dynamic billboard are consistent with current ordinance requirements.
27. The Planning Commission held a public hearing on June 18, 2014, to consider the CBS IUP application.

Conditions for CBS Outdoor Billboard for IUP Amendment PC14-104 on parcel 36-32-22-34-0004

1. The IUP is not a substitute for other permits and CBS shall obtain all building, electrical and other permits and approvals as required by law.
2. The dynamic billboard shall be located, constructed and operated according to the Columbus City Code and all other federal, state, and local laws, rules, ordinances, and standards.
3. The dynamic billboard shall be maintained and repaired to like-new working condition and aesthetic appearance throughout the term of the IUP.

4. CBS shall provide public service messaging opportunities consistent with requirements of the City Code.
5. The IUP shall terminate on April 13, 2031.
6. **The City and CBS shall enter into an agreement requiring CBS to reserve on a space and time available basis up to 5 hours (2250 eight-second spots) per month for public service messages for the City.**
7. Refer to permit #TB00-101 for code requirements at time of original approval.

Motion - 14355 Lake Drive Variance Request (Pages 27-41 & Enclosure)

The Planning Commission held a public hearing, reviewed the variance checklist and made a motion to forward to the City Council the application for variances for the property at 14355 Lake Drive NE, to allow a 13-foot side yard setback instead of the 20-foot side yard setback required by City Code with the setback for the new garage to be measured from the upright wall on the back of the slab, and to allow front-yard location for a garage instead of the side/rear yard placement required by City Code with the condition that the garage have a gable roof and is uniform in exterior style and color to the house, with the recommendation for approval based on findings that the Zoning Ordinance causes a practical difficulty.

Motion PLZ 02400 by Messina to approve the application for variances PC14-105 for the property at 14355 Lake Drive NE, to allow a 13-foot side yard setback instead of the 20-foot side yard setback required by City Code with the setback for the new garage to be measured from the upright wall on the back of the slab, and to allow front-yard location for a garage instead of the side/rear yard placement required by City Code with the condition that the garage have a gable roof and is uniform in exterior style and color to the house, with the recommendation for approval based on findings that the Zoning Ordinance causes a practical difficulty. Second by Krebs. Votes as follows: Peterson - aye; Messina - aye; Duraine - aye; Krebs - aye; Povolny - aye. Motion Carries.

Update - PUD Ordinance Amendment (Pages 42-53)

At the last City Council meeting changes were suggested to the Planned Unit Development (PUD) ordinance. The revised Ordinance was included in the agenda packet. The City Administrator reviewed the changes.

Motion – Planning Commission Member Ordinance (Page A1)

At the last meeting the council directed staff to change the ordinance to reflect reducing the number of Planning Commissioners to 5 instead of 7 and to remove the City council as a nonvoting liaison. The other change was to clarify the term. The action is approval of the Ordinance Amendment.

Motion ADM 05000 ADM 01100 by Peterson to approve Ordinance 14-04 Amending the City of Columbus Chapter 3 – Planning Commission. Second by Duraine. Votes as follows: Peterson - aye; Messina - aye; Duraine - aye; Krebs - aye; Povolny - aye. Motion Carries.

9. PUBLIC OPEN FORUM

Dan Mike, 15123 Hornsby Street

Mr. Mike said he would like to set up a workshop for a project he has planned. The consensus was to hold this at the next Planning Commission joint meeting.

Ken Hanson 189th Avenue

Mr. Hanson said he lives next to (on the north side) of John's Black Dirt and has complaints about noise. Mr. Hanson asked the City Administrator to explain his situation. The City Administrator explained that Mr. Hanson is directly north of the JBD (Forest Lake Contracting (FLC)) operation. Mr. Hanson was in earlier in the week and showed the City Administrator 2 videos which showed a picture shaking on the wall inside his house and the other involved construction equipment at the site. Trucks are coming loaded with black dirt (clean fill) and stock piling it (which will be used for the mitigation) near his property. The site plan identified this stock pile area. The City Administrator said Mr. Vollhaber indicated to her that activity would come to a close this week and that they (FLC) cannot stockpile anywhere else on the property. The pictures were of the stockpiling of the black dirt. Mr. Hanson also brought up the issue of noise from the equipment backup beepers. Mr. Hanson said there are different standards for residential areas (60 -65 decibels). Mr. Hanson monitored the noise and his readings showed the noise was at 83 decibels. Mr. Hanson is home during the day as he works evenings. Mr. Hanson showed the council his video of the noise from his iPad at this time. Mr. Hanson then set up a sound device to demonstrate the backup beeper noise.

Mayor Dave Povolny said the city can talk to FLC about using an alternate method to the beeping noise and discuss how long they will be in that area. Mayor Dave Povolny directed the City Administrator to mitigate the backup beeping noise, and to ask about moving the stock piling area further away from Mr. Hanson's property. Mayor Povolny asked Mr. Hanson to let the city work on helping him work through these issues.

Mr. Hanson asked who will address the issues and how soon the city will do something about these issues. Mayor Povolny thought it will take at least a week. The City Administrator will talk to FLC tomorrow.

Mr. Hanson said he was very stressed and said this has turned personal.

Ceil Neihart 18516 Vassar Street

Mrs. Neihart said she too is listening to the beeping noise. Mrs. Neihart said her house shakes too. The trucks are meeting on the road with buses. Mrs. Neihart said the trucks are Jake braking at their houses. The trucks are coming from all different companies, Petersen trucking is hauling to a house out the north exit. The FLC trucks go out the same exit they enter and are going fast. At what point do they violate the noise ordinance. Mrs. Neihart said she is unhappy and would like to annex from Broadway north to Wyoming and she

doesn't think this council stuck up for them. Mrs. Neihart invited the council members to her house to listen and see what's going on.

10. UPDATE/DIRECTION - PAUL BRIHN CULVERT/WATER ISSUE 1615T AVE. (ENCLOSURE)

The PW Superintendent said he was asked to shoot the elevation of the culvert. The water flowage is to the south. A map of the area was included in the agenda packet. The PW Superintendent explained the map and flow of water. The map identified three culverts in the area. The PW Superintendent explained that Culvert C is lower than A, but B is higher and is a driveway culvert. Culvert A drops 8-1/2 inches to the south. Culvert C may need cleaning but this is private property. Someone sandbagged Culvert A on the south end. The culvert is not plugged, it is a 15" culvert. The Engineer said a couple inches of debris can make a difference in flow. The design was to have the water flow into culvert C, then to culvert A. The City Administrator explained that these are private drainage ditches.

The consensus was to coordinate a meeting with the surrounding neighbors, the Engineer, PW Superintendent and Rice Creek Watershed District to work on a resolution.

D. STAFF & CONSULTANT REPORTS

11. ENGINEER REPORT

Motion -176th Lane, 177th Lane - 178th Lane - Heidelberg Street, Bender Street - 184th Avenue – Damaggio Street Road Improvement Projects (Handout at Mtg.)

Formal petitions were sent to the property owners on these streets. A handout of the results of the petitions was distributed at this time. The action is to decide if the project should proceed to Step 5 - Public Hearing. There are several actions the council needs to take to proceed. The council would receive the petitions and order preparation of the feasibility report for the public hearing(s).

Motion PWE 01200 by Peterson to direct staff to schedule a Public Hearing for July 23rd at 7:00 pm. for 177th Lane/178th Lane/Heidelberg Avenue and Bender Street/184th Avenue/Damaggio Street road improvement projects. Second by Krebs. Votes as follows: Peterson - aye; Messina - aye; Duraine - aye; Krebs - aye; Povolny - aye. Motion Carries.

Motion ADM 05000 PWE 01200 by Peterson to accept the road improvement petitions for 177th Lane/178th Lane/Heidelberg Avenue and Bender Street/184th Avenue/Damaggio Street road improvement projects and approve Resolution 14-08 Declaring Adequacy of Petition and Ordering Preparation of feasibility report by the Engineer. Second by Krebs. Votes as follows: Peterson - aye; Messina - aye; Duraine - aye; Krebs - aye; Povolny - aye. Motion Carries.

A member from the audience asked to speak at this time, Mayor Povolny approved.

Pat Besh, 177th Lane

Mrs. Besh said she doesn't want to pay for the swing away mailbox post and the installation. Mrs. Besh said the post office is planning lockboxes for mailboxes.

There was discussion regarding the reasons for the cost which included removal of the old mailboxes, re-installation of the new mail box posts and how much of this work will still be required even if the new mailbox posts were not installed. In addition the swing away posts allow for proper snowplowing by the public works staff. The Post Office has standards for height, distance from the road, etc. that must be followed if home owners re-install their own mailbox posts.

Motion PWE 01200 by Duraine to remove the swing away mailbox posts from the project. Second by Krebs. Votes as follows: Peterson - nay; Messina - aye; Duraine - aye; Krebs - aye; Povolny - aye. Motion Carries.

The swing away box is standard for road improvement projects, the Engineer said the current mailbox and post has to be moved for the road paving whether or not the swing away style is re-installed. The estimated cost at the neighborhood meeting included replacing the current post with a swing away and re-attaching the mailbox. The PW Superintendent explained that the city sells a kit for a swing away post.

The consensus was the Engineer will remove the cost of the swing away mail box post only from his feasibility report.

A letter will be sent to the residents instructing them on the following:

- the contractor will remove the current mailbox and post and lay it down in the ditch,
- the homeowner is responsible to re-install what was removed or
 - The property owner can purchase a replacement post
 - Or purchase a swing away mailbox privately or from the city.
- The property owner is responsible for re-installing the mailbox post following the official Post Office guidelines. A flyer will be included regarding the requirements by the post office.

The PW Superintendent said they would provide the labor to install the swing away posts if the resident/property owner purchases the kit from the city. The resident/property owner would be responsible to hang the mailbox and paper box on the post.

The City Administrator said there was an attached letter in the agenda from a property owner stating that they didn't think there was enough time allowed to return the road petitions.

Date and time for public hearing

The Engineer explained that at the next meeting the council will receive the feasibility report and call the public hearing by resolution. This could be done at the July 23rd

meeting.

Motion PWE 01200 by Messina to call for the public hearing on July 23rd. Second by Krebs. Votes as follows: Peterson - aye; Messina - aye; Duraine - aye; Krebs - aye; Povolny - aye. Motion Carries.

Motion PWE 01200 by Peterson to direct staff to begin the process with the financial consultant to obtain private placement funds for the construction of 177th Lane/178th Lane/Heidelberg Avenue and Bender Street/184th Avenue/Damaggio Street bituminous road improvement projects. Second by Krebs. Votes as follows: Peterson - aye; Messina - aye; Duraine - aye; Krebs - aye; Povolny - aye. Motion Carries.

A question was asked about early payoff of the borrowed funds for these projects, the City Administrator explained that if the city can pay off early without penalty it does.

Update/Direction - John Brown Property

RCWD has become involved. The Engineer spoke with RCWD Engineer and they will look into the following:

1. Review the Mastel trucking services file to confirm the permit was followed.
2. Define the drainage area that is on the property line of Mr. Brown's property as this involves more than 2 properties.

RCWD would like the City Administrator and Engineer to participate in these meetings. The consensus was to direct staff to attend the meeting(s).

Update – Broadway/KRB Roundabout (Page A3)

A Public Open House was held last night at the City Hall for the proposed roundabout at KRB and Broadway Avenue. A Cost-sharing Agreement was included in the agenda outlining the County and City Share for the roundabout. No action is required tonight. There were about 30 people who attended. The City's share for the project could be in the range of \$100,000 minus federal funds obtained which may reduce the city's share to around \$60,000. There was discussion regarding not only upfront costs but ongoing maintenance costs the city would incur (i.e. lights) and the need for some of the items listed which didn't seem to fit a rural setting (curb/sidewalk, etc.). The City Administrator asked the council for input regarding their support or lack of support for the project as the city has to sign off before the project can move forward. The following comments were made by the council

- This project involves 2 county roads coming together, no city roads.
- What is the design - a single or double or modified double roundabout?
- The council does not support the cost share on a county to county road in a rural setting.
- There are no sidewalks in the area.
- There are no trails to connect to.
- The council expects to pay something but not everything outlined on the summary.

12. ATTORNEY REPORT

Motion – Resolution Vacate Drainage & Utility Easement Columbus Wilds Plat (Page A4)

A resolution was included in the agenda packet to set a public hearing on the vacation of all drainage and utility easements over out lots A and B, of the Columbus Wilds Plat (Mr. Dan Hair). The action is approval of the resolution.

Motion ADM 05000 by Peterson to approve Resolution 14-09 set a public hearing on the vacation of all drainage and utility easements over out lots A and B, of the Columbus Wilds Plat. Second by Krebs. Votes as follows: Peterson - aye; Messina - abstain; Duraine - aye; Krebs - aye; Povolny - aye. Motion Carries.

This hearing will be held on the July 23rd meeting.

13. MAYOR & CITY COUNCIL MEMBER'S REPORT

Council Member Peterson

Fall Fest

A meeting was held today, the next meeting is August. The flyer content is completed. A video of last year's event was viewed.

Park Board Report

The Park Board met on the 19th. The first session of the YMCA play days was cancelled due to low enrollment. Replacements for the poles was discussed no decision has been made. The parking lot extension is on hold at this time. The Park Board decided that the only items to be kept in the ball field boxes is one set of bases, everything else will be brought in. Pickle ball was discussed for the tennis court. The Park Board would like to reduce its membership to 5 as they have had 2 vacancies that have gone unfilled and there is concern about having a quorum for meetings.

Motion ADM 01100 by Peterson to reduce the Park Board to 5 members. Second by Krebs. Votes as follows: Peterson - aye; Messina - nay; Duraine - aye; Krebs - aye; Povolny - aye. Motion Carries.

The 2015 budget was discussed, a 2 year quote for park mowing and maintenance was discussed.

Council Member Messina

Council Member Messina expressed concern that the city council agrees to reducing the number of boards, the things that are being downsized directly affect the residents, while other areas are being funded. The Tree Board and Arbor Day were both cut.

Council Member Messina said he abstained from previous votes because he didn't think he had enough information to make a decision.

Council Member Duraine

Forest Lake Cable Commission

The Forest Lake cable commission met last week. Midcontinent was at the meeting and talked about upgrades. A contract was approved for the media playback system.

City of Wyoming/Forest Lake Contracting

Council Member Duraine talked to Linda Yeager, a council member for the City of Wyoming about using 250th for Forest Lake Contracting hauling. Council Member Duraine asked the other Council members if he could go to the City of Wyoming with information from the Engineer to address this question. It was noted that the entire council can attend if they wish, the council supported this suggestion.

Council Member Krebs

Council Member Krebs asked if the Sheriff will come to talk to the council about the law enforcement contract.

The Planning Commission came up with a good plan for more flexible development options and he would like to see quick movement on this.

Mayor Dave Povolny

No report.

14. Deputy Clerk Report

No report.

15. City Administrator's Report

Personnel Committee Report

The personnel committee has been meeting to discuss a retirement that will be occurring this year. Some of the discussion deals with a 90 day transition period. There will be internal postings and a position will be replaced if there is an opening. Job descriptions, hiring will come before the council for approval.

Response - Suggestion Box - Oak Wilt (Page 54)

A suggestion was received in the suggestion box regarding oak wilt and the lack of regulations to control the spread of the disease. The suggestion is requesting the council consider re-instating the ordinance to control oak wilt.

Budget season is upcoming soon. Staff would like to have a meeting earlier to discuss items. The consensus was to hold meetings as last year.

FYI – Forest Lake Contracting (FLC) Hauling Record (Page A5)

A haul summary report was included in the agenda packet which indicated 4 days of hauling beginning on June 16th, 2014 and ending on June 20th 2014. The performance agreement requires a weekly report. The City Administrator said she and the PW Superintendent have been talking to FLC almost daily. The City

Administrator explained that the column of the report showing the number of trucks is the actual count of trucks not trips, each truck would make 2 trips. (For example, on June 17, 2014, 100 trucks was listed, this would equate to 200 trips).

The City Administrator said hauling started last week and continues this week. Staff has been talking to residents who have been calling in with questions and complaints. The City Administrator emphasized that there is no inspections at the site, for incoming materials or number of trucks, etc. Unless the council appoints someone who knows how to measure the amount of material removed, the city is relying on FLC to provide the numbers. When calls come in to check on complaints, the PW Superintendent (PWS) goes out to check on dust conditions, but there is nothing being done to count trucks and other issues that have come up.

Mayor Povolny agreed that inspections should be done pro-actively and not it go for a couple years. Council Member Duraine said he thought quarterly would be good but was concerned about the cost. The Engineer acknowledged that he could perform the inspections. The Engineer said that yesterday before the meeting on the roundabout with the county, the PWS and Engineer drove over the blacktop roads being used (181st and Notre Dame), walked and came up with a base line measurement, there seems to be some damage. There is a video and narrative that was shot last year before hauling began, so the condition of the road prior to hauling is documented.

Motion PLZ 01200 by Messina to direct the Engineer to conduct 3 inspections of the Forest Lake Contracting/John's Black Dirt mining operation during the hauling season. Second Krebs. Votes as follows: Peterson - aye; Messina - aye; Duraine - aye; Krebs - aye; Povolny - aye. Motion Carries.

Council Member Krebs said one inspection should be at the end of each hauling season. Council Member Duraine asked about checking the agreement to see if there is a cost share for this type of activity.

Council Member Messina added that the goal of permitting this was to see that the mitigation is done. There are no checks and balances at this time, the city is taking whatever FLC submits without a means for verification and he asked how to verify the trips, and he suggested putting a camera up that would track the activity.

A question was asked if this (the inspections) could be cost shared with Forest Lake Contracting.

Council Member Duraine asked if this could be posted to the website (the haul summary)?

Information can be posted, however the concern is whatever will be posted could change at any time due to weather, the job requirements, etc.

Direction was given to post information to the website to include days hauled, trips.

Mayor Povolny summarized the follow up questions for the City Administrator to Bob Vollhaber, Forest Lake Contracting:

- Where the stock piles are.
- Possibility of adding the white noise backup alarms to the equipment on site.

Treasurer's Report

Receipts:	\$29,948.84
Disburse:	\$35,562.72
Balance:	\$1,491,104.58

E. ANNOUNCEMENTS & REMINDERS

- ▶ Planning Commission Meeting 07/02/2014 Cancelled
- ▶ Calendar of Meeting (Page 55)

F. ADJOURNMENT

Motion by Krebs to adjourn. Second by Messina.

Meeting adjourned at 9:07 p.m.

Respectfully Submitted:

Emilia S. Robinson

Deputy City Clerk
