

ANOKA COUNTY SHERIFF'S OFFICE SHERIFF JAMES STUART

FRIDAY UPDATE: 11.13.15-11.20.15

In this report we don't often get to share the success we have in arresting people once an investigation is complete – primarily because good investigations take time to conduct and there isn't an arrest report that comes across our desks when someone is taken into custody after an investigation.

However ☺ this week Investigator Merritt provided us with some follow-up on a burglary that occurred in Ham Lake last August. The burglar stole electronics, jewelry and miscellaneous other items from a home; several thousands of dollars' worth of property. At the scene a palm print was found on a table and submitted to our lab. The lab ran the print and received a hit – which means the suspect was identified. The suspect had no prior contacts in Anoka County but he did have two prior burglary convictions and another one pending in another county.

Investigations are very time intensive and require multiple divisions in our office to work together – it is cases like this that makes every moment spent worth it! If we didn't have the Crime Scene Unit and Forensic Lab in Anoka County, this case probably would not have been solved.
