

Well Water Wise Week 2020: June 8-12

The Anoka County Public Health and Environmental Services Department, in cooperation with 14 municipalities and County agencies, is putting on the 21st annual Well Water Wise week promotion June 8-12, 2020 to encourage residents to check the safety of their private well water. For more information on private well testing, go to the Anoka County Environmental Services Well Water Testing webpage or call 763-324-4260.

County residents may pick up a well water test kit at the participating locations listed below or at the Anoka County Government Center (2100 3rd Ave, Suite 600, Anoka, MN 55303). Water samples can be submitted to Environmental Services for sanitary analysis (coliform bacteria and nitrate-nitrogen) every Monday from 8 am to 4:15 pm and Tuesday from 8 to 11:45 am (excluding holidays).

During Well Water Wise week, however, samples can be submitted Monday through Thursday 8 am to 4:15 pm and Friday 8 to 11:45 am.

The well water testing kit includes details about water collection and submission. A laboratory fee of \$30 will be charged for the coliform bacteria and nitrate-nitrogen analysis. Results will be mailed

to residents approximately 2-3 weeks after sample submission.

Licensed childcare providers may call Child Care Licensing at 763-324-1235 to obtain a well water test kit. Licensed foster care providers may call Foster Care Licensing at 763-324-1230 to obtain a water test kit.

For more information on well water testing, see the Water Testing FAQ on the Anoka County Well Water Testing webpage.
